--------	-------------------------

\*Regional cities are assessed individually.

Source: ABS census data, Victorian LGA census and population statistics and the Netball Victoria membership database.

Future court requirements are a quantitative assessment only and do not take into consideration the compliance and qualitative assessment of the courts. Future demand assessment is based on the Netball Victoria Statewide Facilities Strategy (2017).

Facility audits have been compiled in consultation with Councils and continually updated during regional, local and site specific reviews. The demand assessment will not capture recent facility additions, upgrades and audits.
